3. – 1/8” Woven Ribbon
4. – Rose Cups (item # 25154) our product.
5. - Hair Pins

Instructions:

Step #1 Choose a bumpy, glove or a vase sponge, which ever you prefer to make a spongy sponge-and work on either one boy or girl-(items 64429, 64461, 64509) Once you've selected one, look for the best side of the sponge to make a cute spongy. Notice: if the sponge is too big just cut it in two halves.

Step #2 Now imagine the side the spongy is looking at and glue the cat's eyes red (item #80050) at the top of the sponge. Then where the mouth will be, make a thin cut by using the scissors and glue the flamingo tongue (item #25140) as the mouth. After that with the water paints, paint the lips using a light color.

Step #3 The sponge 2½-3” (item 26401) will be use as the feet just glue it to the spongy. Also you can use this size of sponge to make the sponge's kids, same process but on a smaller size and form a happy spongy family. Use the adequate accessories to give a special touch, to each member. *Example:* you can use the rose cups (item #25154) to make flowers to decorate the spongy girl's head and the 6” straw visor hat (item #12038) for the guy or the whicker hat 3” (item #12032) for the kids.

Now you have a complete spongy family, that you can use as part of your collection or as a gift for your loved ones. And the most interesting thing is that your gift is original and natural coming from the sea.

Note: Hot glue gun activity must be supervised by a competitive adult.
